Re: 2010 Exported Hazardous Waste Annual Report
Valero Delaware City Refinery – Premcor Refining Group Inc.
4550 Wrangle Hill Road
Delaware City, Delaware 19076
EPA ID No. DER000501932

Dear Administrator,

Valero Delaware City Refinery. is submitting this Hazardous Waste Annual Report for the 2010 calendar year as required by Delaware Regulations Governing Hazardous Waste (DRGHW), Sections 262.41, 264.75, and 265.75.

(a)(1) The EPA identification number, name, and mailing and site address of the exporter:
DER000501932, Valero Delaware City Refinery, 4550 Wrangle Hill Road, Delaware City,
Delaware 19706.

(a)(2) The calendar year covered by the report: 2010

(a)(3) The name and site address of each consignee:
Union Corporation, #548, Okmyoung-Ri, Daesong-Myon, Nam-Gu, Pohang-City,
Kyungsanbuk-Do, South Korea;

(a)(4) By consignee, for each hazardous waste exported, a description of the hazardous waste, the EPA hazardous waste number (from 40 CFR part 261, subpart C or D), DOT hazard class, the name and US EPA ID number (where applicable) for each transporter used, the total amount of waste shipped and number of shipments pursuant to each notification:

Union Corporation South Korea, #2 HDU Hydrotreating Catalyst, K171, DOT Hazard Class 4.2, transporter Lacys Express (EPA ID# NJD046555033), 348.2 tons, 23 shipments

received

(a)(5) Except for hazardous waste produced by exporters of greater than 100 kg but less than 1000 kg in a calendar month, unless provided pursuant to §262.41, in even numbered years:

(i) A description of the efforts undertaken during the year to reduce the volume and toxicity of waste generated; and

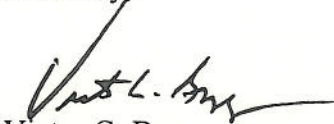

(ii) A description of the changes in volume and toxicity of waste actually achieved during the year in comparison to previous years to the extent such information is available for years prior to 1984:

Valero Delaware City Refinery has been shut down. The decommissioning activities taking place during 2010 produced an extremely high amount of waste. Many wastes were the result of tank cleanings and sewer cleanings. Valero used good sound judgement when reducing the amount of waste by removing as much oil from the wastes that were originally generated. Valero continues to conduct such decommissioning activities.

(a)(6) A certification signed by the primary exporter: see Attachment I.

Should you have any questions or require additional information, please call me at (856) 472-3812 or via e-mail at victor.brzeg@valero.com.

Sincerely,

Victor G. Brzeg
Sr. Environmental Engineer
